15 March 2007

MEMORANDUM FOR RECORD

SUBJECT: Fort Riley Environmental Management Policy

1. Fort Riley, as an installation of excellence, working in close partnership with local, regional and state communities, provides trained and ready forces to meet Joint Force requirements across the full spectrum of current and future operations; transforms and manages unit readiness as directed by the Army Campaign Plan; executes unit re-stationing as directed by FORSCOM; executes garrison operations as directed by Installation Management Command; and conducts homeland defense operations and supports civil authorities.
2. Fort Riley's environmental management system enhances our mission by supporting operations and realistic training conditions. It provides the framework for Fort Riley to achieve one of its strategic planning objectives - to sustain and improve environmental resources and installation facilities, in order to support readiness and quality of life.
3. To support and protect service members, maximize military preparedness, and manage our environmental impacts, Fort Riley commits to:
  - a. continually improve our management practices;
  - b. comply with applicable legal and other requirements;
  - c. prevent pollution and promote waste stream reduction;
  - d. integrate environmental consideration into all activities; and
  - e. conserve, protect, and restore natural and cultural resources.
4. Fort Riley employs its Environmental Quality Control Committee to periodically evaluate environmental activities and measure performance against established objectives.
5. This policy applies to all active duty, reserve component and National Guard service members, and to all civilian and contract employees on Fort Riley, Kansas.

  
THOMAS T. SMITH  
COL, IN  
Garrison Commander
